Dear GSK Recruitment Team,

With the utmost passion and vigor, I would like to express my genuine interest to be a part of the **Commercial Management Future Leaders Program, Philippines, 2024**. As a goal-driven, proactive, detail-oriented, highly-trainable, and experienced leader, I am certain that my versatile skills, experiences, and qualifications would be a crucial asset to the management trainee program that you are offering. I am also specializing in Data Science & Analytics, aligning with GSK's focus on innovation and adaptability in the healthcare sector. My keen skills in technology paired with my leadership experiences provide me with a unique perspective and skillset that can be a crucial asset for GSK.

Your commitment to delivering better and faster healthcare solutions resonates deeply with me. My tenure as a Summer Analyst at JPMorgan Chase & Co. provided me with invaluable experience in project management and process improvement through automation and data analysis, skills that directly translate to supporting GSK's commercial operations. My project management and leadership roles in Ateneo MISA and The Coding School allowed me to collaborate with different people and learn effectively in ambiguous, high pressure, and high velocity environments. Collectively, my leadership roles in university projects, organizational activities, and internship stints have instilled in me strong communication and engagement skills, essential for effective collaboration within GSK's dynamic environment.

In response to GSK's key traits, I offer the following:

**Willingness to embrace and respond to change.** My proactive approach to process improvement and adaptability to dynamic project environments demonstrate my readiness to embrace change and drive innovation.

**Learning agility.** My ability to quickly grasp complex concepts and apply them to real-world scenarios, as evidenced by my tenure at JPMorgan Chase & Co. & The Coding School reflects my learning agility.

**Ability to navigate through ambiguity.** Through my experience in leading multifaceted projects and initiatives, I have developed the ability to navigate through ambiguity and provide effective solutions.

**Flexible thinking and ability to continuously innovate.** As a Project Management Lead for Technology in our university capstone project, I am currently spearheading an innovative solution of creating an enterprise-grade system, showcasing my creative thinking and commitment to continuous innovation.

**Fluent English.** I am fluent in verbal and written communication, ensuring seamless interaction in diverse professional settings.

Ultimately, I am excited about the opportunity to contribute to GSK's mission of positively impacting global health and I am eager to explore how my skills and experiences can support your ambitious growth goals. Thank you for considering my application. I look forward to the opportunity to discuss further how I can contribute to the success of GSK.

Sincerely,  

**Aedren B. Adorador**
