Dear **Unilever Recruitment Team**,

I am writing to express my enthusiastic interest in joining the **Unilever Future Leaders Programme (UFLP)** within the **UniOps Track**. As a college senior taking **BS Management Information Systems** and specializing in **Data Science and Analytics**, I am excited about the opportunity to contribute to Unilever's success while gaining invaluable experience in the manufacturing industry.

Your three distinct streams for future leaders - Cross-functional, Technology, and Data and Analytics - resonate with my educational background and diverse experiences. I would like to express my keen interest in the Data and Analytics Stream, as I believe it aligns perfectly with my skills and aspirations.

Throughout my academic journey, I have cultivated a range of skills and practical experience, particularly in areas like project management, data analysis, programming, and strategic planning operations. I have had the privilege of applying this knowledge in various organizations and course projects. These experiences have equipped me with the ability to thrive in collaborative, high-pressure environments and have honed my communication and adaptability skills.

What excites me the most about the Unilever Future Leaders Programme is the opportunity to work at your esteemed company and contribute to its growth and development. I am confident that my systematic and results-oriented approach, coupled with my strong attention to detail, will make me a valuable addition to your company.

In addition to my technical skills, I pride myself on being highly motivated and easily trainable, with a track record of efficiently acquiring new skills in diverse roles. Balancing these commitments alongside my scholarship responsibilities as a Department of Science and Technology scholar and Ateneo full scholar, all while maintaining a Magna Cum Laude standing, has been a testament to my dedication and time-management skills.

I am eager at the prospect of applying my knowledge and experience to Unilever and helping the company achieve its goals. Thank you for considering my application. I look forward to the opportunity to discuss my qualifications in more detail.

Sincerely,

Dawn Nicole Fabian
